Dear Madame, Dear Sirs,

On behalf of the organizing committee, we would like to invite you to the "Lecture of the year 2016" at our Neurocenter in Lugano, Switzerland.

The "Lecture of the Year" has been initiated in 2009 with the support of the "Sir John Eccles foundation" to demonstrate our commitment to excellence. In the past, we had the privilege to welcome researchers from all over the world who made significant contributions in the field of basic and clinical neurosciences.

The FNT (Fondazione Neuroscienze Ticino) was founded in 2012 in Lugano, with the goal to promote the excellence of neuroscience in Ticino and improve patient care in neurological disorders.

This year the NSI is pleased to honor Prof. Irene Tracey MA (Oxon), DPhil., FRCA, FMedSci, becoming Head of the Nuffield Department of Clinical Neurosciences in September 2016, Oxford University, for her outstanding contributions and pioneering work in the area of "pain and mechanisms of placebo and nocebo effects in humans".

The "NSI" is the only Neurocenter for the Southern Italian speaking part of Switzerland and regroups all public Institutions dealing with, Neurology, Neuroimaging, Neurosurgery, Neuroanaesthesia and Pain Center encompassing the whole spectrum of the Neuroscience disciplines in close collaboration with other Swiss and International Universities and Research Institutions.

We are looking forward to welcome you at the conference and send you our best regards,

Prof. Alain Kaelin, MD PhD
Director NSI

Paolo Maino, MD
*Responsible Neuroanaesthesia,
Head Pain Center*

Prof. Michael Reinert, MD
